

Elecom UCAM- C525FBPN WebCam - Pink

If the person you wave your hand to in a video call is not an inorganic camera, but something that your heart goes through more. Web camera "wanco" that is cute for teleworking and distance learning

Key Features

A high-quality 2-megapixel webcam with a lovely design with a dog motif. Wide screen HD 720p compatible. The video supports a maximum of 1600 x 1200 pixels for recording. It has been confirmed to work with various video calls and video conferencing such as Skype and Zoom, and live distribution services such as YouTube live. It uses a back foot clip that can be attached to the display of a laptop computer or sit on a flat surface. Since the camera has a built-in microphone, you can talk on the phone without a troublesome headset or use it for web conferencing with multiple people. *image are for illustration purposes only
