

Philips HX-6809/16 Sonicare ProtectiveClean 4300 Electric Toothbrush

Feel the difference with the gentle clean of the Pressure Sensor while improving your gum health up to 100% more with the Philips HX-6809/16 Electric Toothbrush. Key Features 2 brushing intensities: Low and High. Densely-packed, high-quality bristles give you an extra gentle brushing to remove plaque along the gumline. Alerts you if you are pressing too hard. Suitable for use with braces, fillings, crowns, and veneers, and helps prevent cavities and improve gum health. Dynamic cleaning action drives fluid between teeth. Lets you know when to replace brush heads. The QuadPacer lets you know the right amount of time spent on cleaning each part of your mouth, while the Smartimer tells you when you've brushed for the recommended two minutes.
