

Electrolux EHE6879A-B (Nett 541L) Inverter French Door Fridge - Dark Grey

The Electrolux EHE6879A-B refrigerator ensures long lasting freshness and preserves the natural taste of foods. It also prevents odours from mixing. Key Features Ideal storage environment for all type of food and drinks - The FlexFresh® drawer offers the widest temperature range in the market that is suitable for all storage conditions; from -23°C to +7°C. You can switch from fridge to freezer effortlessly with the touch of a button. From your fridge to your cooker hob in minutes - With the UltraChill settings at -2°C, items are kept very cold, but not frozen so their textures are preserved for longer in chilled conditions and you do not have to worry about inconvenient defrosting. Keep your fruit & vegetables fresh for 7 days - The TasteLock crisper keeps your fruit and vegetables fresh for 7 days. The AutoHumidity Control filter automatically releases excess moisture to retains juiciness and freshness so that your produce is always stored in ideal conditions. Long lasting freshness - TwinTech Cooling ensures the fridge and freezer compartments are cooled separately to provide long lasting freshness and prevent odours from mixing. Two independent cooling systems ensure optimal temperature and humidity levels so food stays at its best for longer. Ice, water, on demand - Enjoy cubed or crushed ice instantly while having more

storage space thanks to the slimmer ice & water dispenser. The slimmer water tank design with cool water gives you freedom to store more food while still having plenty of ice for drinks whenever you need it. Your fridge, the way you want it - Flexible door bin space gives you the freedom to store everything from large bottles to small jars. Then easily slide them out of the fridge for added convenience.
