

Kuvings SV-500 Vacuum Blender - Metal Silver

Prepare your food with ease using this Kuvings SV500 1.9L Vacuum Blender. Its vacuum technology allows food to prevent oxidization so food stays fresh longer and its Noise Reduction Cover reduces blending noise for your convenience. Key Features Optimal vacuum conditions created by -80kPa of pressure prevent ingredients from oxidizing, preserving the colors, flavors, and nutrients as close to nature. Commercial universal motor with 32,000RPM of maximum speed blends even the toughest ingredients into a creamy, smooth texture with 3.5hp of instant maximum power. Blending is now quiet with the Noise Reduction Cover, a unique advancement in high-speed blending. Pre-programmed buttons make it easy to blend ingredients into any desired texture. With the `auto blending` function, it stops automatically when ingredients reach the desired texture. It automatically calculates the optimal RPM and blending time. 3D-Moving System with six specially heat- treated blades rotate tridimensionally enabling deep blending. The BPA-free and eco-friendly Tritan container allows you to see how ingredients are processed. Due to the safety sensor, the blender operates only when the vacuum container is perfectly mounted onto the main body. *image are for illustration purposes only

Features

General

Brand	Kuvings
Model	SV-500
Product Type	Blenders

Dimensions

Weight (kg)	6.2
Product Height (cm)	44.3cm
Product Width (cm)	21.6cm
Product Depth (cm)	24cm
