

Novita NP-2290 HydroPlus Water Pitcher - White

Novita HydroPlus Water Pitcher NP2290 is the first ever water pitcher collection that comes in a captivating prism of individual colours together with matching cups! It is the object to look out for with its 3-step filtration process which ensures quality water. Key Features Together with 4 rewarding HydroPlus properties – alkaline water, antioxidant water, smaller water molecules cluster size and energy water, indulge in an enriching drinking experience! Filter 500ml of tap water into the HydroPlus Alkaline antioxidant Water within 3 minutes, and you can reap all the rewarding qualities while also minimizing time spent. With the Instant Fill Lid, tap water can easily flow through the comprehensive filtration and become quality drinking water. Filter Lifespan Indicator can keep you updated on your usage to ensure timely filter replacement
