

Zhiyun Crane-M2 Handheld Stabilizer - Black

To make every one a true filmmaker of their daily lives, ZHIYUN brings a new handheld stabilizer designed for multiple devices for users of all levels. Featuring a more easy-to-use quick setup system and smart lock design, as well as six creative operation modes, CRANE-M2 easily goes wherever you go and offers endless possibilities to your everyday creation.

One, Is More than Enough CRANE-M2, with unprecedented all-in-one design, offers great compatibility to multiple devices, such as compact cameras, light mirrorless cameras, smartphones, and action cameras. * Dedicated accessories are needed for mounting phone and action cameras * Compatibility list seen attached Small Body. Bigger Vision With a sleek body and compact size, CRANE-M2 offers great comfort to your hand and unrivalled control over your camera. CRANE-M2 easily goes wherever you go, so you will never miss capturing that perfect moment again.

All in a Glance The intuitive OLED display will show the gimbal mode, Bluetooth & connection status, battery level and various gimbal parameters.

Vlogging Non-Stop CRANE-M2 boasts an impressive runtime of up to 7 hours to keep you powered throughout your adventures. Besides charging your phone, CRANE-M2 can also be charged with a power bank. Seamless Camera Control Adopting a WiFi-and-Bluetooth control module, CRANE-M2 allows you to control your camera wirelessly through the gimbal handle. Once paired via ZY Play, your camera and the gimbal will automatically pair again when turned on. ZY PLAY for More Advanced Functions ZY PLAY opens up a new world of filmmaking for you. Besides

remote control on camera and gimbal, advanced functions including timelapse, panorama and slow motion can be realized easily on ZY PLAY. Visit Lightcollector to watch gimbal tutorials and meet new friends! *Images are for illustrative purposes only.
