

Bang & Olufsen Beoplay A9 Wireless Speaker System With Voice Assistant (Bronze Tone / Walnut Legs)

BeoPlay A9 with Google Assistant is the 4th generation of the iconic A9 speaker from Bang & Olufsen that delivers 480 watts of powerful sound. This powerful music streaming system that will bring beauty and passion to your music. Whatever your interior style, Beoplay A9 can blend in beautifully or stand out convincingly. If you want to change decor, you can create your own look with a variety of textile covers and wooden legs. Key Features Meet your Google Assistant Have your hands full with other things? No problem. Just say the words “Hey Google” and ask for your favourite playlist, to hear the latest news or your local weather report. Fill any space with iconic sound Beoplay A9 fills any room with detailed Bang & Olufsen Signature Sound thanks to its powerful 480-watt digital amplifier system. Built-in room adaptation adjusts the sound perfectly to its surroundings, so you can

experience your music the way the artists intended. B&O X Kvadrat The gorgeous wool-blend speaker covers for Beoplay A9 are made in collaboration with renowned textile brand, Kvadrat. The Danish design company has produced a series of covers in a wide variety of colours that will make your speaker pop or blend in with your home decor. The collaboration between Bang & Olufsen and Kvadrat started with our Beoplay A6 covers, and is continued with a series of gorgeous wool-blend covers for Beoplay A9. The fabric is custom designed, in collaboration with Kvadrat, who are widely recognized for their design textiles. We're proud to continue this collaboration, as the end result brings the very best qualities from the textile industry to our audio product. The fabric brings you the very best of both worlds; acoustic transparency and superior aesthetics through delicate and sophisticated multi-colored threads. Beautiful design Beoplay A9 is designed and crafted like a beautiful piece of furniture – with a careful selection of materials and a great attention to detail. The days of wanting to hide your bulky black stereo are over. No matter where you choose to place the A9, it's going to look beautiful. The days of hiding your stereo are over. We designed Beoplay A9 like a beautiful piece of furniture — with carefully selected Materials and uncompromising attention to detail. The result is an iconic piece of music design you can put on display anywhere. Music in every room Play different music in different rooms – or let one song play on all your speakers throughout your home. Beoplay A9 is a multiroom speaker that seamlessly supports both Chromecast built-in, AirPlay 2, Bluetooth and connects with any speakers supporting these formats. Excellent connectivity Beoplay A9 is a one-point music system that will fill any room with music by itself or you can connect more multiroom enabled speakers together and experience seamless sound. Beoplay A9 supports both Google Chromecast built-in and Beolink Multiroom technologies and combines seamlessly with Beoplay A6 and Beoplay M5, or you can connect via Bluetooth 4.0, Airplay or DLNA. And built-in access to Spotify Connect, Deezer and TuneIn gives you access to their millions of songs, playlists and radio stations. *image are for illustration purposes only
